Op-Center ADMIN

The Order Status and Tracking points are:

- ▶ Date & time the order was first **printed**
- ▶ Date & time the order was **picked**
- ▶ Date & time the order was **invoiced**
- ▶ Date & time order was **dispatched** to customer
- ▶ Date and time customer **signed** for the order \*\*

\*\* Captured automatically by a handheld PDA signature capture

- ▶ Web-based Management Service that can be accessed 24 x 7
- ▶ Real-time analysis of Orders: Picking, Invoicing, Dispatching & Delivery Status
- ▶ Status alerts by order type for tracking order flow through warehouse
- ▶ Allows management to see “bottlenecks” before they create problems
- ▶ History of all completed orders with activity date-time stamps
- ▶ Customers can track their own orders in “real-time” through a B-2-B **Qwik-Order** link
- ▶ Measurement of individual picker performance & average order pick times
- ▶ Automated link to **Qwik-Track** Proof-of-Delivery & customer signatures
